

INTRODUCING

**CFR-1**<sup>TM</sup>  
COMFORT FIT RESPIRATORY SYSTEM

there are changes

in the air

**NORTH**

...*Because we listened to:*

**WORKERS**

*"The CFR-1 is much more comfortable than disposables"*

**SAFETY PROFESSIONALS**

*"The CFR-1 gets higher fit factors than disposables and workers feel better protected"*

**PURCHASING MANAGERS**

*"The CFR-1 is more economical than disposables"*

## **SUGGESTED FILTER**

### **42N95**

*N95 Particulate filters (minimum 95% filter efficiency). Provides protection from solids and particulate aerosols free of oil. Can be used in dusty environments such as grinding, sanding and sweeping. With the CFR-1 Welding Respirator it can also be used in most welding applications such as brazing, torch cutting, soldering, and metal pouring.*

### **Parking Mechanism**

*Provides a convenient place to put respirator when not in use.*

### **4200W**

### **CFR-1 Welding Respirator**

*Designed for the serious welder, the CFR-1 Welding Respirator has a metal mesh front that will protect workers from heat, sparks or slag. Its low profile design easily fits under a welding helmet and/or face shield. Low cost replacement filters makes this an excellent value when compared to expensive disposable welding respirators.*

# APPLICATIONS

THE ALTERNATIVE  
TO **DISPOSABLE**

**CFR-1**<sup>TM</sup>  
COMFORT FIT RESPIRATORY SYSTEM

## 42P95

P95 Particulate filters (minimum 95% filter efficiency). Provides protection from any particulates. Can be used in the same applications as the N95 plus oily environments such as machining. With the CFR-1 Welding Respirator this filter can also be used in welding applications where oils may be present.

FACEPIECE SEAL  
(3 SIZES)

MORE ECONOMICAL  
AND LONGER  
LASTING FILTERS

N95 AND P95  
FILTERS  
AVAILABLE

Unsnap the tabs on both sides  
of the cover

Remove and  
discard used filter

Insert a  
new filter  
between the  
facepiece and  
cover

Snap the cover back into  
place by pressing on filter cover

ALTERNATIVE  
ECONOMICAL DUST MASKS ...  
ECONOMICAL THAN A DISPOSABLE

## **ORDERING INFORMATION:**

North CFR-1 Respirators come with one N95 filter, reusable storage bag and instruction manual. Replacement filters must be purchased separately.

<b>Catalog No.</b>	<b>Description</b>
<b>4200S</b>	CFR-1 Respirator (small)
<b>4200M</b>	CFR-1 Respirator (medium)
<b>4200L</b>	CFR-1 Respirator (large)
<b>4200SW</b>	CFR-1 Welding Respirator (small)
<b>4200MW</b>	CFR-1 Welding Respirator (medium)
<b>4200LW</b>	CFR-1 Welding Respirator (large)

**Replacement filters can be used for both the CFR-1 Respirator and CFR-1 Welding Respirator**

<b>42N95</b>	20 N95 Filters
<b>42P95</b>	10 P95 Filters

### **Accessories**

<b>77BAG</b>	Carrybag for CFR-1 Respirator
<b>7003</b>	100 Respirator Refresher Wipe Pads

### **Warnings related to North Respirator Selection and Use:**

Air-Purifying respirators have limitations on their use. The warnings from the instruction manual that come with the CFR-1 Respirator must be read and understood to prevent the risk of injury or death.

### **Warranties:**

North's products are warranted to be free from defects in materials and workmanship. North's only obligation under this warranty will be, at its sole option, to repair or replace any part proving defective or to refund the purchase price thereof. The owner/user assumes all other risks, if any, such as the risk of any direct, indirect or consequential loss or damage arising out of the use of or inability to use, the product and North disclaims all liability for any loss of damage. Servicing North respirators with parts not approved by North will void the North warranty and any NIOSH approval for the respirator unit. This warranty is made in lieu of the warranties of merchantability, fitness for the particular purpose, and all other warranties, express or implied, and not to be varied or extended except in writing by an authorized official of North Safety Products.

*North's new CFR-1 respirator is the next generation of disposable dust masks. Its reusable facepiece with easy to replace disposable filters will meet and exceed the needs of Workers, Safety Professionals and Purchasing Managers. No longer is there a compromise between comfort, protection and value.*

### **COMFORT**

- *Soft facepiece seal provides extreme comfort and protection*
- *Built in exhalation valve removes air quicker for easier and cooler breathing*
- *Facepiece design prevents filters from collapsing*
- *Adjustable harness ensures a comfortable and secure fit and provides a mechanism to comfortably park the respirator when not in use*
- *Three sizes will comfortably fit a majority of users*

### **PROTECTION**

- *Comfort ensures greater worker acceptance*
- *Higher fit factors than disposables make workers feel better protected*
- *N95 and P95 filters available for a wide range of applications*
- *Welding respirator available for protection from heat, sparks and slag*
- *Inhalation valve allows workers to perform a positive seal check*

### **VALUE**

- *Filters stay cooler, dryer and last longer than disposables*
- *Replacement filters cost less than disposables*
- *Less filter usage means less waste than disposables*
- *Less inventory to carry than disposables*
